PREFACE

Most of the stamps collectors in Sri Lanka, have a dream to complete their collection without any space of their albums. So, this is an effort to gather all issued souvenir sheets by Sri Lanka post, since its 1st issued date and help them to fill their albums. There are more than 270 themes of souvenir/ miniature sheets in the list & images of them, have been included to this document, except few.

The aim of creating this kind of document is, take the idea about souvenir sheets yearly to the collectors. Although I have received few documents which has been created about souvenir sheets, it's not updated and has mixed with sheetlets. So, I think personally, from this document, that mistake will not meet to the collectors. In this document, most of the souvenir sheets have been mentioned from their SG identification with included stamps. But unable to find the SG No's after 2016.

If there is anything wrong in this document from mistakenly, pls let me know from below mentioned contacts, and then it will be big chance to correct it from the next edition of this.

And finally, let me thanks all the persons who gave support to create this document. Although it would be from images, information, ideas and physically supports, it was very important to finish this creatively.

SOUVENIR SHEETS

This is the definition of the Souvenir sheets of Wikipedia.

A miniature sheet or souvenir sheet is a small group of postage stamps still attached to the sheet on which they were printed. They may be either regular issues that just happen to be printed in small groups, or special issues often commemorating some event, such as a national anniversary, philatelic exhibition, or government program. The number of stamps ranges from one to about 25; larger sheets of stamps are simply called "sheets" with no qualifier.

The stamps on the sheet may be perforated in the usual way, or imperforate. The margins or selvage of the sheet may have additional printing, ranging from a simple statement of the occasion being commemorated, up to a full picture of which the stamp(s) are just a small part.
