# Sheetlet of Sri Lanka

## Definition of Sheetlet

According to India Post, a Sheetlet is a miniature version of a complete issue sheet of stamps. It typically comprises sixteen to twenty stamps. Similar to the Miniature Sheet, it also includes supplementary illustrations/elaborations and inscriptions. The primary purpose of producing a sheetlet is to satisfy the demand of philatelists and stamp collectors for manageable-sized stamp sheets. However, it is not necessary to carry out pamphlets to every issue-related event. The cost of a sheetlet is always equal to the face value of the stamps it contains.

Stanley Gibbon's "Philatelic Terms Illustrated" defines a Sheetlet as "A Sheet of stamps containing a significantly smaller number than the standard sheet format." It is issued in both tiny sheets for customer convenience and larger sheets for post office counter use. Internet research reveals that a Sheetlet may contain ten or twenty stamps, with multiple copies of each design.

Further, A sheetlet is a small sheet of stamps, smaller than the standard sheet format. It must contain multiple copies of each unique stamp. Souvenir Sheet is a sheet comprising replicas of non-postal-valid stamps.

The conclusion is that a Sheetlet may contain multiple stamps of each design type.
